4	176560	Wired Headphones	1	11.99	04/12/19 14:38	669 Spruce St, Los Angeles, CA 90001

Remove rows containing headings

In [7]:

```
all_data=all_data.loc[all_data['Quantity Ordered']!='Quantity Ordered']
```

Question 1: What month has maximum Sales?

Extract Day and Month from Datetime column

In [8]:

```
all_data['Order Day']=pd.DatetimeIndex(all_data['Order Date']).day

all_data['Order Month']=pd.DatetimeIndex(all_data['Order Date']).month

all_data.dropna(how='all',inplace=True)
```

Create a Calculated Column of Sales

In [9]:

```
all_data['Quantity Ordered']=pd.to_numeric(all_data['Quantity Ordered'])
all_data['Price Each']=pd.to_numeric(all_data['Price Each'])
all_data['Sales']=all_data['Quantity Ordered']*all_data['Price Each']
```

Best Sales Month

In [10]:

```
bsm=all_data.groupby('Order Month').sum()
bsm
```

Out[10]:

	Quantity Ordered	Price Each	Order Day	Sales
Order Month				
1.0	10903	1.811768e+06	155814.0	1.822257e+06
